Annie,

I'm sorry to bother you with this but I have a case in which I have been ordered to inquire of you whether you have certain information regarding accuracy of drug testing devices. The language from the defendants motion is as follows: "Accuracy of Drug Testing Devices – Documentation of the accuracy and maintenance of the testing device, including but not limited to the make, model, and year of the device, maintenance protocol, calibration history, accuracy history including false history, and instructions and training materials related to the device." I have been transferred to another unit so this case will be reassigned. When you have a moment please call me to discuss this? I'd like to have a response before I pass the case along to the new ADA. Thank you!

Allison
